HERE'S THE YEARBOOK FOR NEW HAMPSHIRE COLLEGE
There is no need for an outpouring of words to explain oneself to a friend. Friends understand each other's thoughts even before they are spoken.
You know how I feel
You listen to how I think
You understand...
You're
My
Friend
A friend?
What is a friend?
It is a person with whom you
dare to be yourself.

C. Raymond Beran
I left the mountains
for a trip to the city
Oh--the lights
the restaurants
the theaters
the people
the action

It was fun
but not nearly as much
as coming home
to the mountains
When a person has a real friend, he learns not only to appreciate another human being, but he also learns to understand himself better.
I don't walk in front of me
I may not follow
I don't walk behind me
I may not lead
Talk beside me
And just be my friend

Albert Camus
One of the most beautiful qualities of true friendship is to understand and to be understood

Seneca
SOUNDS
OF
1975
Bill Tasker, freshman four-year accounting major at New Hampshire College, is out to set a world's record for non-stop college disc jockey performance, and to break a record set last week in Pennsylvania by a professional disc jockey.

Tasker, public relations director of the campus radio station WCAC, is still going strong, though he's been without sleep since before his Monday classes at the college of business administration.

Tasker's marathon started at 3 p.m. Monday afternoon, and will continue until tomorrow at 7 p.m. when he will have shattered last week's record of 99 hours non-stop with a new mark of 100 hours.

Tasker, from Bergenfield, N. J., and WCAC manager Howard Tose, management major from Philadelphia, discussed the marathon idea several weeks ago as a way of publicizing the station. Their aim now is to get New Hampshire College listed in the Guinness Book of World Records for non-stop college disc jockeying, and with Bill still resolved and ready after 46 hours without sleep at 1 p.m. Wednesday, he's nearly halfway to his goal of 100 hours.

Pat Aurora, assistant manager of WCAC, hotel resort administration major from Bridgeport, Conn., heads up the food and drink assembly line of radio staffers who help Bill to make it through the night and the day and the night.

In addition to playing records and requests around the clock, Bill is highlighting campus events and reading public service announcements, including many spots for the campus Red Cross blood drive held on Tuesday.

Only new staff members Al Therox, accounting major from Claremont and Ken Schenpp, management major from Parsippany, N. J., give Tasker brief moments away from the controls when they read the news. Otherwise he's manning station WCAC day and night until he sets a new world record.

Station WCAC was established at New Hampshire College when it was in downtown Manchester and known as New Hampshire College of Accounting and Commerce, from whence came the call letters CAC.

The college, founded in 1922, moved to a 100-acre campus five miles outside Manchester in 1971, at 2500 North River Rd.
Terry Dee Rock’n Roll Circus
Yearbook Dedication
Class of 1975
to
George Teloian
Associate Professor of Accounting
B.S. Boston University
M.B.A. Northeastern University
C.P.A.

There is no more fitting a person to whom a yearbook should be dedicated than to a professor who has shown such dedication to his students and his profession. The class of 1975 is fortunate to have known and studied under such a man as Professor Teloian.

There are many faculty members to whom you can go with a problem. There are very few who could dissect a problem with the dexterity of Professor Teloian.

There are many faculty members of whom you can ask for a few minutes of help. There are very few faculty members who would spend hours with their students, like Professor Teloian.

There are very few faculty members who would greet their students everyday with a "Good Morning" or a "Good Afternoon". Professor Teloian always gave you that salutation.

There are many professors who give you grades, but Professor Teloian does not -- you earn them.

For those who have not experienced Professor Teloian's classes, this may seem to be an over-glorification. For those of us who have, we know that these few words are insufficient.

Although we realize that these words can not adequately express our true feelings, there is no doubt that we, the class of 1975, feel a special gratitude toward the man to whom we dedicate this yearbook: Professor George Teloian.
