LETTER EXCHANGE

Printed below, verbatim, is an exchange of letters submitted to the Campus News by Marvin Dunn.

Dear M. Dunn

What is Homosexuality? Is it part of nature? What does our society state about it?

Mr. Dunn's DEFINITIONS

Homosexuality--To define Homosexuality can be easily denoted. There is probably more nonsense written and connoted about homosexuality and less understanding. In our society homosexuality has been variously considered to be unnatural, abnormal, immature, and psychotic. When we examine other species of mammals, we find homosexual activity, sometimes to the point of ejaculation. Thus homosexual activity is natural in the sense that it occurs commonly in nature.

"Keep sending those letters in." M. D.
