THE C. I. A., CONGRESS, AND THE CONSTITUTION

Welcome to the fifth dinner discussion of the New England Circle with Guest Speaker, The Honorable Michael J. Harrington.

Our purpose is to assemble with others for discussion of social, political, literary, and educational topics, having as a common goal the exchange of ideas and opinions that can lead to constructive change in our nation and in our personal lives.

Congressman Michael J. Harrington, re-elected to Congress for a fourth term, represents the 6th Congressional District of Massachusetts. He is a talented spokesman and critic of the Governmental policies that bare on the quality of life in an uneasy world.

As a leading member of the House Foreign Affairs Committee, Congressman Harrington initiated the investigation into the activities of the Central Intelligence Agency and continues to work for a full review of the functions and purposes of this Agency.

Congressman Harrington's incisive and articulate comments on both foreign and domestic issues have earned him the respect of his Congressional colleagues and his constituency.
