## Historical Note

The Census Bureau has collected data on confectionery products since 1926. In 1989, data tables showing the quantity and value of shipments of chocolate and nonchocolate-type confectionery, by type of product and package, were discontinued. Also discontinued in 1989 were data showing the sales and resales of confectionery by type of customer.

Starting with the 1990 report, data showing the quantity and value of shipments by type of product of other chocolate products (nonconfectionery) were added. Starting with the 1993 report, data for chewing gum were added.

As of 2007, data on the Consumption of Selected Ingredients by the U.S. Confectionery Industry (originally Table 3), are no longer collected.

Starting with the 2007 report, the survey is now conducted as a sample survey. Estimates produced for this report represent the universe of establishments with activity in the Confectionery industries.

Historical Current Industrial Reports data (called Facts for Industry before 1959) may be obtained from a Federal Depository Library. To locate a Federal Depository Library in your area, please visit http://www.gpoaccess.gov/libraries.html.
