## STUDENT CONGRESS MINUTES

At the meeting of February 20, Alan Bush and Ed Hannigan were accepted as new Congressmen from the MIS Department (Ed has since then resigned). The Congress received the Joint Statement on Rights and Freedoms of Students and voted to accept it with the following amendments: "The student will have the right to review the Judicial Board and have the right to dismiss any person he feels is prejudiced. A reason must be given for his dismissal, however. The Board will then appoint another person(s) for that particular case."

It was decided that the '72 yearbook would be given out free to sophomores, juniors and seniors. They may be picked up in the Student Government office. The '73 yearbook will also be given out free of charge.

Money was also allotted to three more clubs at this meeting: \$540 to the Black Coalition; \$500 to the Marketing Club; and \$250 to the Ski Club.

## FACULTY MEETING

There will be a faculty meeting on Wednesday, March 14, at 12:00 noon in Room F56 to consider the examination proposals submitted by the Student Government Association and the Department of Management. This statement has been approved by the Student Personnel Services department and faculty approval is requested.

## VALUABLE DOCUMENTS

Assistant Professor Helen Donaldson announces that term project reports are available at her office for any students who wish to reclaim them. They are filed on the shelves in Stark 16.

# CLARIFICATION ON AV SERVICES

Since the AV Dept. began moving full strength back in February, a number of significant changes have come about and new procedures have been initiated in the hope of serving the college community better and promoting the use of AV and VTR aids. It seems that some faculty and students are somewhat unaware of what has been done and where to find the materials and help they need. I hope the following will help to clear up some of this confusion.

We now have a television studio (Stark 24) which is used for VTR recording and playback (through our closed-circuit TV channel 13 or in the studio itself) and which is working beautifully. I had initially tried to use the studio for showing 16mm films also but found that too much time was spent doing this and not enough on VTR programming. Any faculty member or student who has a film to be shown must reserve the 16mm projector at the main desk in the library and show the film themselves. Only under unusual circumstances will the film be shown in S-24. If some assistance is needed with the projector, I will assist as best I can.

I think it also important to point out that the AV Department is now under the Academic Dean and working extremely well although my office is physically located in the library until the AV Center is built in conjunction with the hoped for library expansion. The library has been fully cooperative in giving me this space and maintaining the service of charging out and reserving the AV equipment from the main desk. This equipment includes such items as tape recorders, phonographs, overheads, 16mm projectors, etc. It does not include such items as the public address system or the VTR hardware. Items such as the last two must be scheduled through me. The librarians, whether the regular or the night/week-end staff, have no responsibility for these materials.

I cannot stress strongly enough that if you desire to use the VTR facilities, the PA system for a college sponsored event, etc., you must see me as soon as you possibly can. If you desire the use of the PA on a Saturday night and wait until Saturday afternoon to see me, all I can say, under normal circumstances, is that the possibility would be very slim. Also, no pressure should be put on the week-end library staff to fulfill such a need.

As I mentioned earlier, the VTR and Channel 13 facilities are operating and waiting for these

faculty members who wish to do more than lecture in the classroom. The infinite variety and capabilities of this media are only limited by the inventiveness of the faculty and myself. Students are also encouraged to make use of the studio facilities for use in their academic programs. I can be reached at my office in the library at ext. 298 or in the studio at ext. 297. -- Audio-Visual Education Director, Richard Ball

## INTRAMURAL BASKETBALL FINALS

Black Coalition vs. Out of Towners

Tuesday, March 13

Wednesday, March 14 all at 7:30 p.m.

Thursday, March 15 (if necessary)

Best 2 out of 3 games.

For the second consecutive year the Black Coalition and the Out of Towners will meet in the intramural finals. Last year the Blacks won by a comfortable margin in the one game series--however this year promises to be much closer. The finals will be two out of three games Tuesday, Wednesday and Thursday.

During the regular season, the Out of Towners and Black Coalition met twice, with the Towners winning the first meeting 41-40 and the Blacks capturing the rematch 39-36.

To reach the finals, the Out of Towners edged The Narcotics 40-39 and eliminated Kappa Sigma (A) 32-26. The Blacks stopped Laurel Street 66-47 and struggled to beat Kappa Delta 52-27.

New Hampshire College's answer to Jimmy "The Greek", Russ "The Polack" Dudka sees the Blacks in two but intramural director Howard Hughes feels it will go three games.

The New Hampshire College Trap and Skeet Team competed with the University of New Hampshire team this past Saturday at the Kittery, Maine Clay Bird Range. The NHC shooters triumphed in both the skeet and trap contests, and came back to campus with 2 trophies!

This has been a good year for our team, and we wish good luck to members John Jenkins, Phil Wright, Bruce Hickox, Peter Gallagher, Bob Crosby, Van Lafermine, Dana Woods in their upcoming competitions when they meet West Point and Cornell, among other tough adversaries. STEADY, Aim, FIRE! And win again, team!
