Footnotes:

1/For comparison of the North American Industry Classification System (NAICS)-based product codes with Schedule B export codes and HTSUSA import codes, see Table 4 of the first quarter report, MQ315A(09)-1, issued June, 2009.

2/Source: Census Bureau report EM 545, U.S. Exports.

3/Represents apparel which is cut in the United States, sent outside the country to be sewn, and then returned to the United States under 9802 (formerly 807) of Chapter 98, Special Classification Provisions of the Harmonized Tariff Schedules of the United States, and is included in the domestic output, imports, and exports. Because 9802 garments are exported in pieces, the export quantity data may be overstated since some data may be reported in pieces rather than completed garments.

4/Represents the value of the U.S. fabricated components.

5/Represents the total c.i.f. (cost, insurance, and freight) value of the article which includes the value of the U.S. fabricated components and foreign processing.

6/Source: Census Bureau report IM 145, U.S. Imports for Consumption.

7/Dollar value represents the c.i.f. (cost, insurance, and freight) value at the first port of entry in the United States plus U.S. import duties.

Note: A total may not equal the sum of the respective detail due to independent rounding.

## Historical Note

The Census Bureau has collected data on apparel since 1923. In 1955, the MA23A apparel series consolidated, on an annual basis, five separate series that were formerly conducted independently (between 1923 and 1954). The 1968 apparel report was the first in this series to show quantity and value for each major product description. Previously, only product code values and/or production were published.

For the years 1980 through 1985, similar data were published separately as MA23E, Men's and Boys' Outerwear, MA23F, Women's and Children's Outerwear, and MA23G, Underwear and Nightwear. Prior to 1984, data on foundation garments were published separately as MA23J, Foundation Garments.

The data were again published on an annual basis from 1986 through 1989 as the MA23A. From 1990 to 1997, the data were published quarterly as the MQ23A. Since 1998, the data have been published as MQ315A with the summary showing any revisions to the quarterly data.

Historical Current Industrial Reports data (called Facts for Industry before 1959) may be obtained from a Federal Depository Library. To locate a Federal Depository Library in your area, please visit <http://www.gpoaccess.gov/libraries.html>.
